Mattyu0026#39;s just like any guy in his late teens whou0026#39;s come out of a long relationship. He likes freedom but hates loneliness. Steve is just like any guy in his late teens whou0026#39;s never had a relationship. He wants one. Especially with the delectable Sara Fischer. Amanda is like any average two century old Lux Sanguis being stalked by a psychopathic Lux Lupus. Sheu0026#39;s sick of floating around and ready to fall in love. Forever. Jakob Karver is unlike many Lux Lupus in that heu0026#39;s a sociopath obsessed with murdering the daughter of the man who murdered his father. And if he has to grow fur and claws to do it, so much the better. When a story of teen romance and another of centuries old supernatural blood feuds collide the result is a mess that a bunch of racist werewolves, a group of romantically befuddled teenagers and a recently recommissioned Lux Sanguis soldier will take a whole summer of blood, love and vengeance to sort out.
