~~Utterly betrayed by the only people she trusted, Iana flees Newhom and runs toward an idea: the hope of family and sanctuary with the Hive community she'd grown up in. As Danielle draws Iana closer, using physical intimacy to strip away defenses. Iana finds herself more dependent on the Mentor every day- but is it love or mere desire that binds them? Death defying action scenes in the snows contrast with a deeper understanding of the cave world of the Ramblers series.
